About Me

Motivated and future-ready BCA student with a strong foundation in programming and a deep interest in emerging technologies such as Cybersecurity, Artificial Intelligence, and Full Stack Web Development. Passionate about building secure, scalable, and intelligent systems.

☆☆ Career Objective

Aspiring MERN Stack Developer with a passion for building scalable web applications using modern technologies like React, Node.js, and MongoDB. Passionate about building secure, scalable, and intelligent systems. I am committed to continuously learning and adapting to the fast-paced tech landscape while delivering impactful solutions. With hands-on experience in real-world projects using modern web stacks, I aim to contribute meaningfully to organizations that value innovation, collaboration, and problem-solving. I thrive in dynamic team environments and enjoy exploring new challenges that allow me to grow as a developer and technology enthusiast.

Education

Bachelor of Computer Applications (BCA)\ Raj Institute of Management and Science, Varanasi\
Currently Pursuing (2nd YEAR)

12th (Science - Biology)\ [OMEGA PUBLIC SCHOOL], [CBSE]\ Year: [2022]\ Percentage: [62%]

Tech Stack & Skills

- **Languages:** C, C++, JavaScript, Python (Basics)
- **Frontend:** HTML5, CSS3, JavaScript, React.js
- **Backend & APIs:** Node.js, Express.js, RESTful APIs
- **Database:** MongoDB, Mongoose, My SQL
- **Developer Tools:** Git, GitHub, Postman, VS Code, Netlify, Render
- **Cybersecurity & AI Skills:** Networking Concepts, Basic Linux, Python for AI
- **Practices & Methodologies:** Agile, Scrum, Git Workflow, RESTful API Design, Clean Code, Responsive Design, MVC Architecture

Projects

Wonderlust (Full-Stack Travel App) (<https://wanderlust-app-ue5p.onrender.com/listings>)

- Built a feature-rich travel exploration app using MERN stack with JWT-based authentication, REST APIs, and mobile-responsive design. Integrated MVC pattern for **modular code structure**. **Repository available on my github.**

Spotify Clone(Frontend-project) (<https://github.com/Rishabhsaroj12/spotify-clone>)

- Designed a music streaming frontend clone using HTML, CSS Only. Features include playlist UI and responsive layout.

Memory Game(Simons-Say) (<https://simons-say.vercel.app/>)

- Developed a logic-based matching game using DOM manipulation and custom event handling in JavaScript.

Weather App (<https://weather-app-7637.vercel.app/>)

- A responsive web application that displays real-time weather data using the OpenWeatherMap API. Built with React and styled using Tailwind CSS.

Personal Portfolio Website –(<https://my-portfolio-ashy-two-17.vercel.app/>)

- A responsive personal website showcasing my projects, skills, and resume, built using React and Tailwind CSS. Modern portfolio site showcasing skills and projects. Optimized for mobile and deployed on GitHub Pages.

Freelance Experience

- Delivered freelance projects for local clients focused on functional websites and problem-solving logic. Involved in gathering requirements, backend setup, deployment, and client support.
- Ready for a good internship.

Certifications

- Full Stack Web Development Certificate (<https://mycourse.app/TW29nQfh4PtpfSbeE>)

Languages

- English (Professional Fluency)
- Hindi (Native)

Interests

- Cybersecurity & Ethical Hacking
- Artificial Intelligence & Machine Learning
- Full Stack Web Development
- Exploring new technologies
- Scripting for Automation

Hobbies

- Playing Chess (Strategic Thinking)
- Traveling (Exploring Cultures & Ideas)
- Listening to Music (Focus & Relaxation)
- Exploring Tech Communities
- Watching technical experiment & AI Talks
